立志打造卓越的产品质量和完美空间环境是我们的执着追求。

Shandong Weiguan Aluminum Industry Co., Ltd. is a high-tech enterprise in China that focuses on the research, design, production, sales and installation of modular mobile buildings such as space cabins and apple cabins. It is also a core supplier in the fields of cultural tourism and residence, mobile commerce and temporary supporting buildings.

The company's products have passed authoritative certifications such as ISO9001, CE and UL. They use E0-level environmentally friendly building materials and passive energy-saving design, have 8-10 levels of wind resistance and earthquake resistance capabilities, and have excellent waterproof and insulation performance. They support full-process customization of appearance, size, interior decoration and intelligent configuration, and can be tailored to specific cultural tourism IPs, regional characteristics, etc. To provide a full chain service from design, production, transportation to on-site installation and after-sales maintenance, standard products can be delivered within 7-15 days, and customized projects can be completed within 25-30 days.

The products are sold throughout the country and exported to dozens of countries and regions in Europe, America, Southeast Asia, and the Middle East. They serve over a thousand cultural tourism scenic spots, commercial complexes and government projects. They are widely used in cultural tourism inns, mobile commerce, scenic area supporting facilities, emergency resettlement and other fields. They support personalized customization and global delivery, and strive to create high-quality and high-traffic innovative mobile spaces for customers.

The company adheres to the concepts of green environmental protection, intelligent innovation and flexible practicality. With modular buildings as the carrier, it breaks the limitations of traditional architecture and provides efficient and high-quality mobile space solutions for cultural tourism resorts, commercial innovation, emergency support and other fields, helping customers create popular and traffic-oriented scenarios and high-value space assets.

Our persistent pursuit is to create excellent product quality and perfect space environment.
